

Discover the freedom of a Simple Cremation

What exactly is a Simple Cremation?

A Simple Cremation is a modern alternative to a traditional cremation service. Ideal for those looking for a simple cremation without a service or ceremony, we offer the freedom to say farewell your way.

Our Simple Cremation plans take care of all of the essential elements. These include cremation fees, doctor's fees, Hearse transportation to the crematorium and most importantly the love and care our family have proudly been delivering for over 60 years.

The Modern over a Traditional Funeral Choice

So why are more and more people discovering the freedom a Simple Cremation offers, when choosing how to say farewell to a loved one? Every cremation or funeral is a unique experience for the families involved, but if we were to sum it up, quite simply there are **four great reasons to choose a Simple Cremation**

Flexibility: Offers the opportunity to arrange a dignified and respectful cremation now - with the flexibility to hold a memorial at a later date to celebrate your loved one's life in a way that suits you.

Simplicity: A simple cremation without ceremony and service, removes the stress and strain on families of organising a traditional funeral and wake.

Cost efficiency: Removing the costs associated with a traditional funeral, gives you the flexibility to spend the money on a farewell of your choosing or to pass on more of the financial estate.

Practicality: For those with no close relatives or whose relatives live overseas and would be unable to attend a traditional service in the UK.

How it works

A Simple Cremation is one which takes place completely separately from the personal farewell or service. This increasingly popular alternative to a traditional funeral, gives you the freedom to celebrate your loved ones life, at a time and place and most importantly in a way of your choosing. Whether that be at a location with unique memories, on a specific memorable date or simply in a way your loved one had left specific wishes to be celebrated.

A simple way to
say farewell

On an agreed date with the crematorium we will transport your loved one to the crematorium in our traditional hearse, where our bearers will carry them into the service hall before the final committal. Following the cremation your loved ones ashes will be returned to us, where they will remain in our care until you are ready to receive them.

What will be included in a Simple Cremation

Whilst this is a modern alternative to a traditional funeral, at H.J Newman our charter for the last 65 years has been to provide a trusted and caring approach to funeral services. Therefore you will find the finer details of a “traditional” nature remain in every cremation entrusted to our family’s care. This, in our opinion, is why we remain one of the last remaining family-run independent funeral directors in Berkshire.

Every Cremation will include:

The recovery of your loved one from private residence, Hospital, Care Home or Coroner’s premises

Cremation fees for a simple unattended committal

Light Oak coffin

A traditional hearse transfer from our premises to the Crematorium

Bearer service to carry your loved one into final committal

A biodegradable ashes container with identity disc & papers

If you have any unique requests a member of the family is always on hand and we will do our best to accommodate those requests.
